GALLATIN STEEL HONORED BY HYLAND SOFTWARE ***Receives OnBase® RealSolutions Best Overall Solution Award***

at Hyland Technical and Training Conference

GHENT, KY – September 22, 2008 – Gallatin Steel was recently recognized by Hyland Software, Inc.--the developer of OnBase enterprise content management software--as a winner of the OnBase RealSolutions Best Manufacturing Solution Award.

Gallatin Steel was honored at Hyland's 2008 OnBase Training & Technology Conference held in Las Vegas, Nevada. Results Engineering of Columbus, Ohio--an industry leader in implementing electronic document management and workflow automation solutions--designed, developed and implemented the solutions for Gallatin Steel.

OnBase is used in dozens of processes for Gallatin Steel: fulfill and audit customer orders, Barge, Rail and Truck Shipping, Claims, Quality Library, AR Lockbox, and Document Knowledge Transfer to distribute required reading for Safety, Equipment Operations, ISO Quality, Human Resources and other documents.

About Gallatin Steel

Gallatin Steel, located in Ghent, Kentucky, is a flat-rolled carbon steel producer, and employs 430 associates. The company is located on the banks of the Ohio River approximately one hour from Louisville, Kentucky and Cincinnati, Ohio. It also won the 2008 Kentucky Large Manufacturer of the Year Award.

About Results Engineering

Results Engineering provides software and services whose sole focus is on *business process reengineering*. Since 1993, Results Engineering has been engaged in the planning, design, and

implementation of best-of-breed Electronic Document Management and Workflow solutions. Specializing in moving information from paper--to data--to content--fast, automatically and strategically, Results Engineering makes content available, with security and control, when and where it is needed. Results Engineering gets results, on time, on budget within the projected ROI. For more information on Results Engineering please visit <http://www.ReEng.com>.

About Hyland Software

Hyland Software, established in 1991, is a leading U.S. provider of rapidly deployable enterprise content management software with over 7,900 enterprise clients. Hyland develops OnBase, enterprise-class software that combines integrated document management, business process management and records management in a single application. OnBase allows organizations to manage digital content, including scanned paper documents, faxes, print streams, application files, electronic forms, web content, multi-media files, and emails. OnBase is used by businesses and government agencies to automate business processes, reduce the time and cost of performing important business functions, improve organizational efficiency and address the need for regulatory compliance through the management, control and sharing of digital content with employees, business partners, customers and other constituencies. Visit www.onbase.com for more information.
